Dear FCC:

My usage in wireless service is less than 10 minutes per month. It is primarily used to keep in touch with my immediate family and for emergencies. We seldom accept phone calls on our wireless phone. For me, this increase will exceed my yearly costs by over 10%. This is not an acceptable rate of increase.

Please reconsider this increase. Thank you for your time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Cindy Katz
